A PROJECT FROM

VIRAL VIND STUDIOS

We synergize the thriving realms of gaming and crypto, revolutionizing the industry by integrating NFTs into an immersive game experience that addresses the longstanding concerns of traditional gamers seeking blockchain solutions.

Viral Vind Studios will establish a dynamic ecosystem, by creating a series of games and a wallet solution for games that will bridge the gamers to web3.

GRAND GANGSTA CITY

GGC GAME

\$GGC will be used as a principal currency within the gaming platform, allowing users to purchase virtual products, unlock additional levels or features, and engage in various in-game activities.

\$GGC is going to bring IRL utilities and will be a beneficial use case for WEB3 Gaming and Crypto.

- **FILLING A GAP IN THE MARKET:**

Huge demand for mobile games that offer both battle royale and open-world story mode experiences. filling this gap by providing a unique and innovative solution.

- **UTILIZING WEB3 TECHNOLOGY:**

By integrating web3 technology can offer a new level of player engagement, ownership, and monetization opportunities compared to traditional mobile games.

- **OFFERING PLAYER OWNERSHIP:**

With web3 technology, players can own their in-game assets and have control over their virtual economy, which can increase player engagement and retention.

- **PROVIDING NEW MONETIZATION OPPORTUNITIES:**

By incorporating web3 technology, Grand Gangsta Studio can offer new and innovative ways to monetize the game, such as non-fungible tokens (NFTs), in-game trading, and more.

- **BUILDING A COMMUNITY:**

With the combination of battle royale and open-world story mode, Grand Gangsta Studio can attract a large and dedicated player base that can engage with each other and the game in new and exciting ways.

- **DRIVING INNOVATION:**

By leveraging the benefits of web3 technology, Viral Vind Studios can push the boundaries of what is possible in mobile gaming and drive innovation in the industry.

WALLET PROBLEMS

zebufleckvleih, 05/11/2021

Metamask is confusing

I lost my money with no ability to recover using meta-mask. As such, these morons have found a way to completely ruin the whole point of block chain. I mean, if I can track where my money was sent from my DeFi Wallet, but meta-mask simply loses it on their end, with no ability to recover the wallet, then that basically just ruins the whole concept of Blockchain. The DeFi Wallet is amazing, I can track exactly where I sent my crypto to, I can see the meta-mask that I sent it to. When I open the meta-mask and type the address in, it says that wallets never existed. But it very much did. I sent VChain to my MetaMask, and the transaction was completed, but when I turned off the app and re-opened the app a different wallet opened up and I have no access to the prior wallet. This app looks like it was designed by somebody from Apple, and it is constricted and cryptic. It is hard to tell what you are doing. It doesn't let you name wallets, so I assume that I had multiple wallets called Account 1. That's REALLY stupid. If this app had allowed me to name my wallets, then I wouldn't have lost my funds, because I could've identified which wallet was open. What a crummy wallet. First crypto transfer to a wallet I attempted is lost.

Joined, got a bonus for joining, a transferred out of my wallet, from time, and no one had access to my money into it. I'm sure it all would how it's deceptive practice.

my @[MetaMask](#) has been hacked, I lost my ETH, someone ask me for commission and send me a sketch, but it's not PNG or jpg, but he sent rar file, and I open it, next day my eth is disappear, can someone tell me how to change wallet for my Foundation account ? its kill me for sure

EDGAR 12/27/2020
It's png quality, and it doesn't load here because it's too big, so I've compressed it and put it in the archive

sketch_by_edgar.rar Download

yusmanali 12/27/2020
can you screenshot it ? my iPad can't load it

EDGAR 12/27/2020
Unfortunately I can not send a different format here, try with a PC please, it should work, thank you!

yusmanali 12/27/2020
I'm on my home, just phone and iPad here
maybe tomorrow
you can screenshot or png, and paste here actually

How to do it and they sent me a pad answer saying we're sorry we lost all your money. Obviously they didn't even read my request. I don't know what to do but I certainly couldn't recommend this app to anybody who is new at this. And their customer service is Neil. Not even a phone number to call if you have an issue.

With millions of people using their app as they say in their promos they are to have at least one customer service number that a person can call for help but I can't find it anywhere on their website or on the app. I'm beyond frustrated so I have to rate this with a one and I'm sitting there watching my money wanting to pay a credit card down and not able to do it. Oh woe is me for using trust Wallet.

Developer Response,
The Built-In DEX will only list coins or tokens that are already trading on popular DEXes. If you cannot find your token then you need to send it to a centralized exchange. Learn more here: <https://community.trustwallet.com/t/what-is-the-dex-inside-trust-wallet/174>

It takes so long to load. I keep installing and uninstalling but it takes too long. Sometimes, it just shows up just the diamond and shows nothing else. And each time, I lose all my assets. Even after I restore the wallet with its passphrase, I still don't get the assets no matter how I refresh it. Please can you fix it? Thank you.

via third party payment (simplex payment) on last Friday. It took the money right away after submitted . However , it emailed to me and said that the transaction was canceled I will receive my money back within 3 days but I haven't received any money until now . I emailed to them so many times but they just send me back automatically notes about policies transactions two times. No one took care my emails . Even I just would like to have transaction go through to have some BNB coin to switch to other coins again but no one was available to help my questions . I tried to click on BNb to buy again but it said unavailable so many times . It is frozen now. I know that the simplex payment is the third party but please tell them send back to me my money . With me only a few money that is ok for me to lose it . If they don't return to me . I'm apologizing to you to give you 1 star because of it . Then I suggest that you guys don't use the simplex payment for customers anymore if there are so many cases like mine. You guys will lose customers and the businesses in the future.

DEMAND FOR MAFIA-THEMED GAMES

Mafia-themed games have been a popular genre for many years and they often revolve around organized crime, gangs, and the criminal underworld, drawing inspiration from classic mafia movies and TV shows.

Such games are based on building economy, securing your territory and running successful business and become the leader. Imagine all that in Web3 where, whatever you will build and earn will be in real world currency while having fun playing the game.

MARKET SIZE

Mobile game revenues in 2022 accounted for 50% of the global market.

The revenues encompass consumer spending on games: physical and digital full-game copies, in-game spending, and subscription services like Xbox Game Pass. Mobile revenues exclude advertising. Our estimates exclude taxes, secondhand trade or secondary markets, advertising revenues earned in and around games, console and peripheral hardware, B2B services, and the online gambling and betting industry.

PRODUCT DETAILS

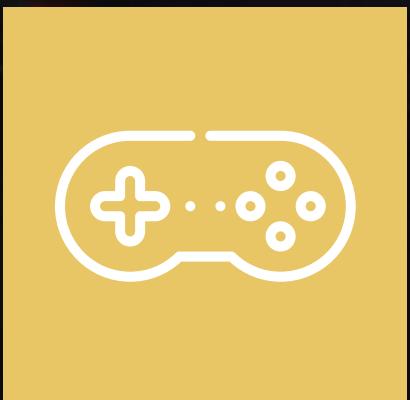

PLAY TO MINE

Grand Gangsta City leverages the concept of 'play to mine' as opposed to 'play to earn', which creates a more sustainable model for increasing demand for tokens. As the number of players increases, so does the demand for these tokens, leading to a self-sustaining and thriving economy within the game.

TRIBAL WALLET

Introducing Tribal Wallet, the unparalleled non-custodial wallet solution that prioritizes user experience and security. With its free SDK, all games can now have an in-game wallet, allowing for seamless integration and enhancing the overall gaming experience. Empower your users with the ultimate combination of user-friendly interface and advanced security features with Tribal Wallet.

TOURNAMENT

Get ready for the excitement of Grand Gangsta City's Global Tournaments! With small entry fees for Battle Royale matches, players will compete for a substantial prize pool on a global scale. To add to the thrill, we'll be streaming these matches live on popular platforms and partnering with influencers to make the competition even more entertaining. Join the action and become a champion in Grand Gangsta City. #THEREALGANGSTA

RUN YOUR SYNDICATE

In Grand Gangsta City, owning virtual land opens up two lucrative opportunities for players: building a factory or hosting tournaments. By constructing a factory, players can earn revenue from the production of NFT patches. Similarly, by hosting community tournaments, players can monetize their land and generate additional income. The choice is yours, but both options offer a chance to profit and become a successful player in the virtual economy of Grand Gangsta City.

PLAY2 MINE

Grand Gangsta City's '**play to mine**' model is a unique concept that blends gaming and economics in a new way. Instead of traditional mining operations, players earn tokens by playing the game and participating in various in-game activities such as battles and tournaments.

As they earn tokens and collect NFTs, their 'hash rate' increases, reflecting their overall progress and success in the game. This creates a self-sustaining system where the more a player participates, the more tokens they earn, driving demand for these tokens and creating a thriving virtual economy within Grand Gangsta City.

GRAND GANGSTA CITY

GGC TOURNAMENTS

Grand Gangsta City is taking the gaming world by storm with its innovative tournaments that provide players with an unparalleled experience. By combining small entry fees, large prize pools, and live streaming on popular platforms with influencers, Grand Gangsta City is attracting players from all over the world to participate in fierce and exciting competitions.

These tournaments not only offer players a chance to showcase their skills, but also bring the Grand Gangsta City community together, creating a lively and thriving virtual economy. Join us and discover why Grand Gangsta City is the future of gaming.
